

Long-term EU budget 2021-27 (MFF)

Single Market, Innovation, Digital

"We are committed to an innovative Europe that is founded on the key pillars of expanding digital and technological sovereignty, enhancing competitiveness and shaping a sustainable and stable financial architecture."

Programme of Germany's Presidency of the Council of the European Union (p.8)

✓ Political Demand of EM Germany

"The EU Commission and the Member States should create enabling conditions for growth and investment. Funding schemes to leverage investments should be expanded and bundled under InvestEU. The EU should also increase investments in trans-European energy, transport and broadband networks"

For a future-oriented single market 2019/20

Proposal in billion euros (in 2018 prices)

New COM proposal

140.66
